BIZERBA

The perfect combination of slicing and weighing.
Continuous customer contact and convincing ease of use of a modern multimedia scale: ergonomic, easy to clean, energy-saving.

More information
High performance
with a wide range of
solutions and options.

Product description

The GSP H slicer with integration of retail scale K-Class Flex II represents a new generation of integrated devices in the retail process landscape. A major added value for the end user is the absolute transparency in terms of customer contact since customers can see the products while being sliced, weighed and packaged. The trip between slicer and separate scale can be saved which allows a permanent eye contact to the customer.

GSP H Flex

Highlights

Flexibility:

- Slicing and weighing on the service counter
- Bizerba premium slicer with metrologically approved scale up to 6 kg / 15lb
- Ease of use of a modern multimedia scale
